SKILLS

Languages

Typescript | Python | Go

FRONT-END SKILLS

Next JS | Tailwind CSS | MUI | Shad CN | Figma

BACK-END & DB SKILLS

Django | Node JS | Express JS | Gin | Socket.io | MongoDB | PostgreSQL | Redis

INFRASTRUCTURE / DEVOPS

Docker | Github Actions | AWS | GCP | CI/CD

Data & AI

Machine Learning

Education

Bachelor of IT – Software Engineering

Adventist University of Central Africa 2025 – onGOING
kigali, Rwanda

Experience

Backend Engineer Intern

A2SV – Africa To Silicon Valley · July 2026 – Present

Contributing to backend development in a collaborative engineering environment, building production-grade APIs and systems alongside a team of talented African engineers.

- Built and maintained RESTful APIs using Go (Gin), Node.js, and Django across multiple projects
- Collaborated with cross-functional teams using Git, code reviews, and agile workflows
- Worked on real-world backend systems with PostgreSQL, MongoDB, and Redis, using clean architecture patterns
- Participated in structured technical training and peer programming sessions

Projects

NextJS + NodeJS: ParkAfrica – Smart Parking Management System

[Link](#)

ParkAfrica is a real-time smart parking management platform for companies to register and manage their parking operations in one system. It streamlines access and transactions across multiple parking areas in 20+ countries with support for 4 languages. [Currently working with 25+ Companies]

NextJS + GO: Recital – Personal Reading & Speech Studio

[Link](#)

Recital is an AI-powered reading and speech studio where users write scripts, rehearse with cinematic animations, and get coached by an AI scoped entirely to their content. Built with Next.js, Go, and PostgreSQL with support for 3 languages.

DJANGO: Velora – Online E-commerce Store

[Github](#)

Velora is a sleek and modern e-commerce web app designed for a seamless shopping experience. Built in Django with speed, style, and usability in mind, it lets users browse products, manage carts, and checkout effortlessly through a beautifully crafted UI
